SAFEGUARDS

- Read all instructions before operating.
- Administer close supervision when using around children, to ensure that they do not play with the appliance.
- This appliance is not intended for use by people (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning the use of the appliance by a person responsible for their safety.
- Close supervision is necessary when used around infants, children, or anyone incapable of unplugging the blanket.
- Do not use the blanket on anyone overly sensitive or insensitive to heat.
- Do not use the blanket as an animal heating appliance, as they can damage the blanket or power cord and cause an electric shock or burns.
- Unplug the blanket when not in use or if the vehicle is unattended.
- To protect against electric shock, do not immerse the plug or blanket in any liquid.
- Do not use the blanket if it is wet.
- Do not use the blanket with a damaged plug or cord, or if the blanket has been damaged in any way.

-
- Do not use the blanket for anything other than its intended use.
 - Never wrap the power cord around the blanket, as this may damage the cord.
 - Do not use the blanket while it is folded or scrunched up, or it will overheat and cause the internal circuit breaker to trip.
 - Do not insert pins into blanket.

OPERATING INSTRUCTIONS

Start the vehicle's engine. Plug the blanket into the vehicle's 12V DC Accessory Outlet. The LED indicator located on the plug will light to show that the blanket is receiving power. The blanket will automatically maintain a warm, comfortable temperature.

CLEANING

- Do not use bleach on the blanket.
- Do not machine wash or dry.
- Do not dry clean.
- Spot wash by hand with a wet cloth or soft brush and a mild detergent.
- Allow the blanket to dry thoroughly before using.

STORAGE

- When not in use, allow blanket to cool down before folding. Gently fold the blanket and place back into the original package.
- Do not crease the blanket by placing items on top of it during storage.

TROUBLESHOOTING

This blanket is equipped with an 8 amp fuse. If the 12V circuit fails to operate, try the following suggestions:

- Unplug the blanket from the power supply and make sure the receptacle is clean and the plug is making a good contact.
- Check the blanket's fuse located in the end of the 12V DC Accessory Plug. If the fuse is blown, replace it with a fuse of the same type and rating.
- Check the vehicle's fuse panel. If the fuse is blown, replace it with a fuse of the same type and rating.
